ARCHITECTURAL DESCRIPTION

Architectural Style: Other: If Other, specify: Craftsman - remodeled
Property Type: Residential Specific Property Type: Single Family Dwelling

Architect: Architectural Firm/City/State:
Builder/Contractor: Company/City/State:
Source of Information:

The Marcus & Freda Beck House is in Butte’s Floral Park neighborhood, a large residential area on the valley floor or “Flats” section of the city. It is at 2519 Moulton Avenue in the northern part of the neighborhood, about six blocks northwest of Whittier Grade School and eight blocks east of Harrison Avenue. Buildings at the property include a house and a garage. Located on the north side of Moulton, they are setback far from the street next to the alley.

The house is a small, single-story wood-frame bungalow constructed about 1917. It is topped by a side gable roof and rests on a poured concrete foundation. A full-length porch spans the front (south) façade. There is a small side gable addition on the west façade. Sources consulted suggest that the addition dates the to mid- to late 1950s.

Remodeling in recent years resulted in the loss of all the house’s original Craftsman Style design elements. Included among the original elements removed were a small shed-roofed dormer, knee braces at the gables, and exposed rafter tips under the eaves. Additionally, brick piers, square wood posts and solid rails at the front porch were replaced with replica turned posts and square post railings. No historic windows or doors remain, replaced by vinyl units of alternative designs. Exterior walls were sided with composition boards.

Also constructed about 1918, the garage is just east of the house. It is a small single stall garage of wood frame construction. The roof is a front gable and the foundation appears to be poured concrete. Unlike the house, the garage has not been extensively remodeled, and continues to display its original narrow lapped wood siding. A pair of wood outswinging doors on the south façade appear to be the original garage doors.
HISTORY OF PROPERTY

Construction of today’s house at 2519 Moulton Street was completed in about 1916. A young married couple, Marcus and Freda Beck, likely were the original owners and occupants. Marcus Beck was a “building carpenter” by trade. While unverified, it’s conceivable that he constructed the house and garage.

The Becks moved from Coeur d’ Alene, Idaho to Butte following their marriage in 1914. Butte’s booming wartime economy and the high demand for new housing presumably was the draw. The couple only lived at 2519 Moulton for two or three years. In May 1918 they entered in a contract to sale the property to Charles and Aili Larson. The Larson’s obtained the deed to the property in early summer 1920. By then the Becks had moved back to Coeur d’ Alene.

Both Finnish immigrants, Charles Larson and Aili Tensunen Larson presumably met and married in Butte. When a US Census taker visited 2519 Moulton in early 1920, they found the Larsons living there. At that time Charles was in his late 30s and worked underground in a Butte copper mine, while Aili was in her mid-20s. The Larsons remained at 2519 Moulton for the next 25 years, until Charles died.

After remarrying, Aili Larson Kosonen sold 2519 Moulton to a young couple, Roland and Marjorie Flynn, in 1950. At the time Roland Flynn held a teaching position at Webster-Garfield Grade School, a recent addition to Butte’s large system of public schools. The Flynns made the house their home until 1958 when Roland accepted a position as school principal in Billings. Marjorie Flynn’s parents, Martha and Thomas Hawke, purchased 2519 Moulton and moved into the house at that time. The Hawkes remained there into the early 1960s.

NRHP Criteria: ☐ A ☐ B ☐ C ☐ D  
Area of Significance: 期

STATEMENT OF SIGNIFICANCE

The Marcus & Freda Beck House is in the Smith & Shew Addition, one of several residential additions within the Floral Park neighborhood on the Flats of Butte. Platted in 1913, Smith & Shew was among the latter additions to the neighborhood. Some new houses appeared in the addition within the next few years, including the Beck House. The end of World War I in 1918 and accompanying decline of Butte’s mining industry, however, curtailed new construction activities through the city.

The Marcus & Freda Beck House is not eligible for listing in the National Register of Historic Places. Recent remodeling completely obliterated its architectural heritage as a Craftsman Style residence. The house’s historic integrity has been comprised to the point that the property could not contribute to a potential historic district, let alone be considered eligible on its own merits.
PROPERTY NAME: **Marcus & Freda Beck House**

**INTEGRITY** (location, design, setting, materials, workmanship, feeling, association)

While both the house and garage date to the historic era, 2519 Moulton has lost essential aspects of integrity. All of house’s original Craftsman-style design elements are gone and virtually all of its exterior materials are modern. The replacement windows and doors are not historically compatible in design or materials.
Property Name: Marcus & Freda Beck House

SCOPE OF WORK (Describe the proposed project in detail. Insert or attach maps, drawings, reports, photographs or other materials as specified by the "SUBMITTAL REQUIREMENTS CHECKLIST" section of this form).
The property owners received a SARTA grant to assist with rehabilitation of the front façade of the historic commercial building at 15 South Montana Street. Constructed in 1907, the building originally housed the Richards Funeral Home; it later became the Eagles. The SARTA award was for removal of the false stone veneer from the storefront to expose the original brick, and restoration of the original brick. Other façade work planned, but not covered by the SARTA grant, includes window and door repairs and/or replacements and painting of the historic door and window frames, cornice and other trim elements. The property owners intend to seek a URA grant for that second phase of work.

Selensky Masonry has been retained to remove the false stone and repair the original brick. The firm is known for high quality work to preservation standards, including use of appropriate replacement brick and mortar.
SUBMITTAL REQUIREMENTS CHECKLIST

Demolition Review COA

☐ Historic Property Inventory form (not available).
☐ Site map showing footprint of building/structure proposed for partial or complete demolition and any other buildings/structures on the property.
☐ Photographs of all four facades of building/structure proposed for partial or complete demolition.
☐ Photographs of structural deficiencies of building/structure proposed for partial or complete demolition.
☐ Structural evaluation report prepared by a certified engineer or architect.
☐ Rehabilitation cost estimate prepared by a qualified contractor, or certified architect or engineer.
☐ Assessment of property’s fair market value prepared by a realtor.
☐ Proof of advertisement for the sale or lease of the property for a period of 90 days.
☐ Relocation plan.
☐ Design Review COA for any new buildings or structures proposed for construction.

Design Review COA

☒ Historic Property Inventory form.
☒ Site map showing footprint of building/structure proposed for rehabilitation and any other buildings/structures on the property.
☐ Site map showing footprint of building/structure proposed for new construction.
☐ Elevation drawings of all facades proposed for rehabilitation, indicating window and door placement and types, other structural or stylistic elements, and construction materials.
☐ Elevation drawings of all four facades of new building/structure proposed for construction, indicating window and door placement and types, other structural or stylistic elements, and construction materials.
☒ Photographs of all four facades of building/structure proposed for rehabilitation.
☒ Photographs of all exterior structural/architectural elements proposed for repair or replacement rehabilitation
