Resources

1. Submitted by Don McGiboney, DPHHS Healthcare Preparedness Program Manager: The Basic Disaster Life Support™ (BDLS®) course is a 7.5 hour competency-based, awareness-level course that introduces concepts and principles to prepare health professionals for the management of injuries and illnesses caused by disasters and public health emergencies. The primary focus of the BDLS course is incorporation of an “all-hazards” approach to mass casualty management and population-based care across a broad range of disasters. Measures to ensure and enhance health workforce readiness are emphasized throughout the course. This includes a consistent and scalable approach to workforce protection and casualty management, as well as, mass casualty triage and fatality management.

This course is offered through scholarships provided by Montana’s Healthcare Preparedness Program (HPP) and your Regional Healthcare Coalitions (RHCC).

1. This is an On-Line Interactive BDLS Course taught for Montana Residents ONLY. Access code will be MTDOH.
2. You must have access to the Internet for this class.
3. You must attend ALL Four of the modules to receive credit for the BDLS course. Each module is 2 hours x 4 modules for a total of 8 hours for the entire BDLS Course.
