

**Minutes for Butte-Silver Bow  
Non-superfund Health Study Citizens Advisory Group  
February 15, 2013, 9:00 A.M. -10:00 A.M.**

1. Members Present: Merrell Benedict, Steven Coe, Jay Cornish, Helen Joyce, Paul Riley, John Rolich. Members Absent: Dr. Kumar Ganesan
  
2. Questions and Comments from Greeley Area Citizens Group and from Concerned Citizens.
  - a. Discussed what ways would be the most effective to address the questions and concerns from the Greeley Area Citizens group and the general public concerning the health study.
  - b. Concluded that the best method to address the public comments is through a "Fact Sheet". The fact sheet will be developed by the advisory group and address the critical information pertaining to the health study. Once the fact sheet has been completed a public meeting will be held to discuss the fact sheet and discuss implementing a work plan for sampling.
  - c. Helen Joyce will be the contact person for public comments.
  
3. Preliminary Ambient Air Quality Issues, Data, and Sampling in the Health Study
  - a. Discussed what air quality issues need to be address in the initial phase of the health study. The issues that may be addressed are: PM2.5, PM10, crystalline silica. Other issues may be added to the initial phase.
  - b. Speciation data will from previous years will be studied by Dr. Ganesan and Steven Coe.
  - c. Reduction of PM 2.5 in the Butte Valley will be under the guidance of the Butte-Silver Bow Air Quality program.
  - d. Dr. Ganesan and Tony Ward will design a sampling study for the summer.
  
4. Time Line
  - a. Fact sheet to be completed by March 14, 2013
  - b. Advisory group will meet on March 15, 2013 to review fact sheet.
  - c. Public meeting to be schedule for late March or early April 2013
  - d. Sampling time frame for July-August 2013
